

POLYAIR

ECOLITE BUBBLE MAILERS

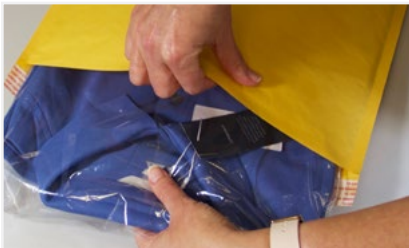

Ecolite bubble mailers provide outstanding low cost shipping protection for a wide variety of products. Ecolites are made with a golden kraft outer layer and an inside layer of Duraliner Bubble.

Also available in white!

FEATURES & BENEFITS

- Economical alternative to shipping products in a carton, resulting in significantly lower packaging and shipping costs
- Fully laminated kraft/bubble provides rugged durability and better protection for enclosed product
- 1/2" fins on 3 sides and flap of bag help absorb shock
- High slip lining allows easier product insertion and extraction, increasing productivity
- Tamper-evident hot-melt self-seal closure helps ensure content security
- Duraliner Bubble lining protects contents and opens without creating a mess like a macerated mailer
- Custom print option is ideal for advertising, promotional mailings and branding
