

BACK TO WORK IN THE “NEW NORMAL”

CURBSIDE PICKUP & RETAIL SOLUTIONS

As we navigate through getting back to work in the “new normal”, businesses are finding that they need to establish new traffic spacing and customer accommodations, including effective carry-out and curbside pickup service. As such, business owners and operators are in need of products that help establish proper spacing and efficient customer management - especially in retail services and food industries. Effective design and deployment is fast becoming the hallmark of success in our new normal. In these times of uncertainty, it's important to have a source you can rely on for all your customer management and retail traffic flow needs. **IPG is ready to help businesses** create and maintain a steady flow of properly spaced customers with a full array of domestically available tapes and other products to keep up with these changing dynamics.

- **Polyethylene (PE) tapes** for marking social distancing areas at your business' pickup sites
- **Aisle marking tapes** for traffic management
- **Colored masking tapes and dispensers** for color coding takeout containers and food categories and for marking social distancing areas, aisles and hazard areas
- **Bag sealing tapes and dispensers** for color coding and bag sealing
- **Tapeshooter 404 dispensers** for packaging deli products
- **Barricade and flagging ribbons** for marking restricted areas
- **Double-coated tapes** for posting informational signage
