

POLYAIR

STARMOVER

VENTED PE FOAM/HDPE FILM

STARMOVER is solidly constructed from PE Foam and HDPE film to wrap, cushion and protect furniture during moving and storage. The pinholes through the product allow moisture to transfer without condensation, minimizing the risk of moisture damage to your items during storage/transit.

FEATURES & BENEFITS

- 3/16" thick PE foam cushions and protects, helping to prevent dents and scratches on items
- 1.0 mil grey HDPE film is puncture and tear resistant, and stands up to tough abuse
- Starmove is vented so moisture and air pass through, preventing condensation from forming on items
- Light weight - reduces shipping costs
- Conforms to unusual shapes, allowing for total surface protection
