

INDICATOR TAPES

STEAM STERILIZATION • TYPE 1

Our high quality Process Indicator Tapes are designed to seal packs that are exposed to steam sterilization. The tape distinguishes between items processed and unprocessed in both gravity discharge and pre-vacuum steam sterilization processes.

FEATURES & BENEFITS

- Designed for use in gravity sterilizers operating at 121°C (+3°C) for 30 minutes or pre-vacuum sterilizers operating at 132°C (+3°C) for 4 minutes and 135°C (+3°C) for 3 minutes
- Made of a saturated crepe paper printed with non-lead-based ink, the green indicator lines turn black once exposed to the steam process. It is coated with a synthetic, solvent-free adhesive.
- This product is not made with natural rubber latex
- Lead is not used in the manufacturing of the ink of indicator lines
- Meets International Standard - ISO 11140-1:2014
- Approved as a Medical Device per FDA - 510(K) #K161024
- The tape requires pressure upon application in order to provide proper contact, assuring that the tape will stay in place throughout the steam autoclave process
