

STARMASK

ADHESIVE FOAM CUSHIONING

Starmask adhesive foam sticks to the product providing a protective mask and peels off without leaving a residue. Manufactured with an adhesive film layer, Starmask is very strong and puncture resistant.

FEATURES & BENEFITS

- Adhesive film adheres to almost all surfaces, including glass and metal
- Low / no residue for almost all applications
- Water-based film is safe for handling
- Reusable - can be used multiple times if kept clean of dust and dirt
- Stocked product - stocked in all Polyair plants in limited quantities for fast order turnaround

COMMON USES

- Protection of electronic screens and sensitive parts during shipping
- Abrasion and shock resistance for glass and high-sheen metal parts of appliances
- Spot protection for any product during shipping/handling
